CHARLES HAMILTON SHAFER

is a Gentleman the State Department Calls a Swindler.

He Pretends to Be Consul at Perote, Mexico, and Works a Confidence

The Department of State has received many inquiries in the last few days regarding Charles Hamilton Shafer (who, it is charged, while representing himself as consul at Perote, Mexico, is attempting to swindle people throughout the country), and has replied to all that we have no consul at the place named, and that Charles Hamilton Shafer is a swindler. Charles Shafer is consul at Vera Cruz, not far from Perote, and the name assumed by the alleged swindler shows an evident intention to use the similarity to help the deception.

The following is a copy of the letter which has been used, it is charged, as a means of accomplishing this swindle:

CONSULATE OF THE UNITED STATES, PEROTE, Mexico, October 9, 1893. Dear Sir-It is my duty to inform you of the death of James R. Moulton, near this city. During his sickness he requested that, in case of death, you should be informed, and that his personal property, including a sealed package of documents, should be sent to you.

Before I was informed of his death, the undertaker secured possession of this property, to secure the balance due for Mr. Moulton's funeral. He has refused to deliver this property, without an order from you, and payment of the balance. This amounts, in United States money, to \$24.

You will, therefore, please sign and send to me an order, in English, directing the

You have the right to sign this order.

I inclose a clipping in which the man advertises the goods for sale. I want to make it hot for this party, if possible. The most valuable articles are: One gold watch and chain; one emerald scarf pin; one diamond ring; three diamond shirt studs, and two Smith and Wesson revolvers; also, two trunks containing clothing, photographs and

undertaker to turn the property over to me.

papers.

It is the general opinion that Moulton was an assumed name. I am informed that his ranch is worth from \$8,000 to \$12,000. his ranch is worth from \$8,000 to \$12,000.

I must learn as soon as possible who are Moulton's heirs. When you examine the sealed package you will, without question, learn Moulton's true name, then please send their names to me.

If you wish you can send the \$24 to me, and I will redeem the property, and at once, ship it to you; or you can send the money to Gongales.

Should the property be sold, there will be many heavy government fees and the balance liable to be claimed by bogus credi-

many heavy government fees and the bal-ance liable to be claimed by bogus credi-tors, besides the certainty of the sacrifice of a forced sale.

Do not send a draft, or an order, as the banks at present will not accept them. The cheapest and most convenient way is to mail the currency, in an envelope directed

exactly as per inclosed.

It would be well for the time to send some person here with a power of attorney, in or-der to sell the ranch. Prompt and explicit observance by you of these suggestions will assist me greatly in this matter. Yours respectfully, CHARLES HAMILTON SHAFER.

PHYSICAL EXERCISES

To Be a Feature of the Eastern High School Course.

Numerous objections and complaints have been raised, during recent years, against outside of the regiment have not been considered. Mr. E. W. Williams, teacher in mathematics at the Eastern High School, and quite an all-around athlete, has conceived the idea of forming athletic classes among the boys for those enilsted and not enlisted in the regiment Mr. Williams does not intend to make the exercise exercise. but on the other hand desires to have only those boys enter the classes who are willing to carry on the work with the right spirit. After once entering, a withdrawal will not be allowed. The periods of instruction will be confined to the study hours of the pupils, will be a half hour in length, and will be so arranged

that each boy will take the exercise at least two times and not more than five times a week. Until more apparatus can be purchased, the exercises will be confined to the horizontal bars and dumb-bells. Acto the horizontal bars and dumb-bells. Action was taken Friday in the Eastern, preparatory to forming the regular classes and making out the athletic programs for each week. If all of the arangements can be arranged by Monday, it is expected that the first lessons will be given then. There are now about a hundred boys who have handed in their names for enrollment, and it is probable that as soon as the system has been in effect about a week, and the excellent and worthy object of the project is apparent to all, the remainder of the boys will be only too desirous of entering.

Mr. Williams will be the instructor of the classes, and will do everything in his power Mr. Williams will be the instructor of the classes, and will do everything in his power to make the scheme a success, and have it instituted in the regular course at the other high schools before the termination of the school year. As far as the Eastern is concerned, it will be considered on the same level with the recitations, and the same attention and interest will be received. tention and interest will be required from
